# 1. Rock'n roll man

---

It's a date babe, but baby I won't come  
And if you call me, you won't find me home  
'Cause me and the boys, we have a show tonight

## **Chorus:**

I'm a Rock'n roll lover, baby  
I'm just rock'n roll man  
If you need to call me,  
call me "Rock'n roll man"  
If you need to call me,  
scream "Rock'n roll man!"

I'm playing in band, baby, baby, yes I do  
And even though I love you, and you love me too,  
If you're playing in band, 't's a rocky road that you take

**Chorus:..**

**Solos..**

**Chorus..**

# Happy Birthday

---

I often think of you when I'm alone  
How can I forget this heart of stone  
You look so pretty babe, you look so fine  
But will there come a day when you'll be mine

## Chorus:

Tonight's your birthday, baby  
Happy birthday!  
Tonight's your birthday, baby  
oh, so fine  
Tonight's your birthday, baby  
Happy birthday!  
But will there come a day when you'll be mine

Tonight you're gonna have so much fun  
Your smile will be like a rising sun  
And I will be at home sad and alone  
Oh why can't I just pick up the phone

## Chorus:..Solo..Chorus:..

Have fun, have good times, little baby  
And don't look back at what you've done before  
I won't disturb you, mamma  
I won't knock on your door  
Have fun, have good times little baby  
And don't look back at what you've done before  
Have fun, have good times but remember  
My heart loves you more and more

## Chorus:..

You'll be mine!

# Have you ever thought?

---

Have you ever thought that we could be so close  
hand in hand, one to one  
Walking the streets tonight alone  
under the stars

Don't you know that I'm alone tonight  
playing this song, crying for you  
How I wish you're home to treat me right  
oh, I want you

## Chorus:

8 days, 4 months and 3 years  
I've been waiting, waiting for you  
crying, crying a 1000 tears  
oh, I want you, I want you

I want you...

Have you ever thought that we could be together  
till death do us (a)part  
You know I will love you till the last  
beat of my heart

Don't you know that I'm alone tonight  
playing this song, crying for you  
How I wish you're home to treat me right  
oh, I want you

## Chorus...

I want you... I want you...

## Soloh

# Lead me to you

---

You know I love you baby  
You love me too  
But I can see no way to make  
our dreams come true

Every day and every night  
I wonder what is right  
Someone hear me, someone help me  
Someone try to understand me

## **Chorus:**

Oh, baby I don't know  
Who will lead me to you  
baby I don't know  
Who will lead me to you

Can't believe that you are gone now  
You've gone so far  
Will I ever see you again, my  
My love, my shining star

Every day and every night  
I wonder what I didn't do right  
Can you hear me? Can you help me?  
Can you, please, come back and save me?

## **Chorus...**

## **Solo**

## **Chorus...**

## **(Relax...)**

# Get it out

---

We were walking hand in hand  
I hoped she would understand  
That my love for her can fill all time and space  
When she slept I sat on her bed  
oh how I wanted to hold her head  
Wanted to kiss her, oh how I loved her face

## **Interlude:**

But it was two years ago  
Now I'm alone and I scream: I need you baby!

## **Chorus:**

I need to scream  
I need to shout  
I hate this pain, please, get it out  
I want to kiss your lips tonight  
please come to me and make it alright! Alright...

Where are you now, do you know  
that there's a boy who loves you so  
Are you happy, do you love someone  
Do you want someone to hold you  
Do you need someone to love you  
Are you thinking of me and the times that have gone

**Inter..., Chorus...**

**Solo**

**Inter..., Chorus., Chorus**

**Soloooooohhhh**

# What love can do

---

Hey baby,  
can you see (the) love in my eyes  
Hey little baby,  
just take a look and realize

## **Chorus 1:**

...that everything I ever do  
I dedicate to you  
Can't you see what love can do?

hey little honey  
gimme your hand and walk with me  
hey little baby  
you must take a look and see

## **Chorus 2:**

... that I will always do  
anything you ask me to  
Can't you see what love can do?

## **Soloto**

## **Chorus 2**

What love can do...

# What can I do (country)

---

Papa tell me what to do  
To make the girl I love, love me too  
Tell me how to win her heart  
tell me now...  
I don't know where to start

she's so shy and beautiful  
she's so kind and careful  
Tell me papa  
what can I do

she's so shy and beautiful  
she's so kind and careful

(oh tell me papa what can I do)

She's the best girl I have ever seen  
The only one I need, it seems,  
The only one who can make me feel  
soft as wool and hard as steel

The only one who can make me strong  
I need her lovin' all night long  
Tell me papa  
what can I do

She's the only one who can make me strong  
I want her lovin' all, all night long

**Solou**

Momma tell me what to say  
when my girl comes to me one day  
Tell me how to show what I feel  
Tell me how...  
It's so unreal

She can make me feel all right  
She can make the stars shine bright  
Tell me momma  
What'd I say

She can make me feel alright  
She can make the stars, the stars shine bright

She can make me feel alright  
She can make the stars, the stars shine bright

Tell me papa, tell me ma  
Can I say everything's all....

right!

# Shake me!

---

I once saw a girl, the girl of my dreams  
I have never seen someone so fine  
She was the best girl, so she seems  
But she was never, she was never mine

## Chorus:

I saw her alone at a party  
I asked her if she wanted to dance  
But she said: "Get out of here!  
Get out my boy, you have no chance"

I have really tried to forget that girl  
But she's the one for me in this crazy world  
I want her all night, want her all day long  
and that is why I sing this song

## Chorus:

I dreamt I went to a party  
I asked her if she wanted to dance  
"Shake me", she said and she was glad  
"Shake me, boy, now is your chance"

## solo

Shake me, all night long, my baby  
Shake me, all yeah  
Shake me, all night long, my baby  
All night long I'm gonna sing my song  
All night long I'm gonna sing my song  
All night long I'm gonna sing my song
